Mirek,

There are some of us here, that would call that speed building.

Well done, it look great.

Welcome Mirek,

Your building looks superb, and your English is less than crazy...

Hi gentlemen 😊

First I apologize for my "crazy" English 🙄

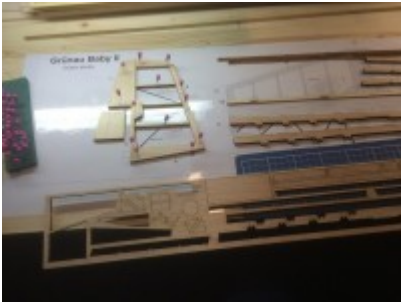

I'm returning to modeling after 25 years, so I chose something simple for a beginning. 😊

I started preparing a desk for rudder and elevator construction. The plan is covered with the thermal lamination film for documents lamination and lightly sparkled

The construction of laser cut parts is quickly and easily to build
