Hi,

Back again!!!

Some photos of my glider.

The seatback has been removed, in order to make the correct one.

Setting the kingpost.

It's temporary uncovered in order

to place the ailerons' servo extension cables.

Thank,you Mr Balcombe for your encouragement!

I will post more pictures from the progress!

Looks good Sotiris.

Keep up the good work.

SG38 project

Hi,

here is my current project of 1/5 primary glider SG38! The plan has been drawn by Jim Ealy and

extracted from this site.

The presentation does not have a step by step detailed character but a reference issue.

The worth point is that, I used carbon rod of 1mm diam. as dowels to enhance the joints.
